

Arjun Amit Kharade

Mobile Application Developer

✉ arjunkharade1643@gmail.com 📞 +91 8217425856 📍 Bangalore, India [in LinkedIn](#) [GitHub](#) [Portfolio](#)

🔗 Skills

Languages	Kotlin, Java, Dart, Swift, C, JavaScript, Python
UI & UX	Jetpack Compose, SwiftUI, Material Design, XML, HTML, Material UI, Tailwind.css
Frameworks	Android SDK, Kotlin MultiPlatform (KMP), iOS SDK, Flutter, Ktor, Koin (DI)
Databases	Firebase, MongoDB, MySQL, SQLite, SQLDelight, AWS Storage, Oracle CLI
Architecture	MVI, MVVM, MVC, BloC
Tools	JIRA, GitLab, Confluence, Wootric, Mux, Firebase Cloud Messaging, Bitrise, Detekt, Snyk

👛 Professional Experience

Pluralsight

Mobile Application Developer Intern

Jan 2025 – June 2025

- Developed features for the **Pluralsight Skills app** using **Kotlin Multiplatform Mobile (KMM)**.
- Built platform-specific UIs with **Jetpack Compose** and **SwiftUI**.
- Integrated **Wootric SDK**, implemented **notification framework**, and resolved bugs.

Explified

Software Developer Intern

June 2024 – Jan 2025

- Developed cross-platform mobile apps using **Flutter**.
- Built responsive web apps with **React.js** and managed state using **Redux / Context API**.
- Participated in production deployment for mobile and web apps on **Google Play Store** and **Apple App Store**.

📁 Projects

Aapda Seva — *Smart India Hackathon* (Java, Android Studio, Firebase, Google Maps)

- Developed an Android application using **Android Studio** and **Java**, featuring dual portals for users and rescue agencies, real-time chat, and map-based location tracking for emergency coordination.
- Enabled **offline data access** and integrated an **SOS emergency call system**, ensuring reliable communication and support during critical situations.

Health Buddy — *Your Fitness Partner* (Flutter, Dart, Firebase, AI)

- Developed a cross-platform mobile application using **Flutter**, supporting both **Android** and **iOS**.
- Implemented an **AI-powered chat-based Diet Planner** to provide personalized meal suggestions.
- Built a custom **Calorie Calculator** with logic for tracking and managing daily intake.

Clinical Findings — *Sri Jaydeva Institute of Cardiovascular Science* (React.js, Node.js, Gemini AI, MongoDB)

- Built a medical web app using **React.js** and **Node.js**, featuring **speech-to-text**, **NLP-based summaries** (via **Gemini AI API**), and **multi-language support** for accessibility.
- Implemented **secure patient data storage** using a unified **Patient ID system**, ensuring compliance with **Electronic Health Record (EHR)** standards.

🎓 Education

B.E. in Computer Science and Engineering

2021 – 2025

Dayananda Sagar College of Engineering, Bangalore

CGPA: 9.25 — VTU, Belagavi

🌟 Courses & Certifications

- Data Structures and Algorithms using Java — Infosys SpringBoard
- Software Engineering — Infosys SpringBoard
- Android with Kotlin: Fundamentals — Pluralsight
